Syed Hassan Sibtain

Senior Software Developer (Full Stack | Frontend-Heavy)

Address: Dubai | **Phone:** +971 528 4839 65

Email: hsibtain18@gmail.com | LinkedIn: Syed Hassan | Website: https://hassansibtain.dev/

Summary

Results-driven Senior Software Developer with over 7 years of experience architecting and delivering high-performance web applications across SaaS, fintech, and B2B domains. Adept in both frontend (Angular, React, Next.js) and backend (Node.js, MySQL) development, with a strong focus on performance optimization, scalability, and clean architecture. Proven track record in leading migrations, modernizing UIs, and mentoring teams to deliver enterprise-grade solutions. Strong collaborator with product, QA, and DevOps teams, delivering secure, user-centric software under Agile methodologies.

Immediate joiner actively seeking opportunities to lead projects and innovate in fast-paced tech environments.

Skills & Expertise

- **Front-End**: Angular (v4–17), React.js, Next.js, RxJS, NGRX, Redux, Tailwind CSS, Bootstrap, Figma, Angular Material, GSAP, Responsive Web Design
- **Back-End**: Node.js (Express), RESTful APIs, MySQL, JWT, RBAC
- **DevOps & Practices**: Git, GitHub Actions, Netlify, Jira, Confluence, Agile/Scrum
- **Cloud and Tools**: AWS (Lambda, S3,Api Gateway), Postman, VS Code, Chrome DevTools

Experience

Contour Software (A subsidiary of Constellation Software Inc.)

Senior Software Developer — Remote | Jan 2025 – Jun 2025
- Spearheaded development of scalable web applications supporting 1000+ daily users across enterprise platforms.
- Conducted architecture reviews and applied modular designs that reduced technical debt by 30%.
- Mentored more than 3 junior developers, introducing Angular design patterns and enforcing coding standards.
- Coordinated with cross-functional teams and drove product alignment through Agile ceremonies.
- Led integration of third-party services and enhanced system observability.
- Used **TypeScript** for strongly **typed** component development and state handling.
- Incorporated **WebSocket** protocols to enable real-time data updates for mission-critical financial applications.
- Provided technical leadership for the Angular development team, establishing coding standards and conducting rigorous code reviews to ensure high quality and security across all front-end applications.

Software Engineer (Angular Specialist) — Remote | Jan 2021 – Dec 2024
- Migrated Nexus View product from **Angular 7** to **Angular 12**+, now on roadmap to v17.
- Collaborated with product and design teams using Adobe XD to deliver pixel-perfect interfaces
- Enhanced application performance by 30% through **lazy loading**, modular refactoring, and optimized API usage.
- Modernized UI stack combining **Angular Material** with custom components, reducing dev time by 40%.

- Integrated **Invoice Cloud**, enhancing enterprise payment processing UX.
- Maintained **Git versioning**, led **code reviews**, and enforced team best practices.

Key Product Contributions

Nexus View & Nexus Metronic — Mission-critical enterprise apps for financial operations.

Haball Pvt. Ltd
Full Stack Software Engineer (Angular, React, Node.js) — Karachi | Jan 2018 – Jan 2021
- Built responsive UIs with **Angular (v4–14)** and **React.js** using **TypeScript**, following Figma-based design specifications.
- Leveraged a combination of **Bootstrap** and **PrimeNG** to develop and maintain complex UI components, ensuring a responsive, consistent, and feature-rich user experience.
- Utilized Excel and PDF document generation and parsing functionalities to support enterprise reporting and data exchange.
- Liaised with designers using **Adobe XD** to implement precise UI handoffs.
- Built **RESTful APIs** using **Node.js** and **MySQL** for real-time **fintech integrations**.
- Managed complex application state using **NGRX** and **Redux** in large-scale applications.
- Delivered **JWT**-secured role-based access systems compliant with **GDPR**.
- Improved API performance by 40% via **MySQL** query optimization.
- Implemented a robust message queuing system with **RabbitMQ** for reliable asynchronous processing of fintech transactions.

Key Product Contributions

Payment Suite CTE, Wissaq & SCF — **Digital invoicing** and **supply chain financing** platforms for enterprise clients.

Education

- **Bachelor's degree in computer science – 2017**
  - National University of Computer and Emerging Sciences (NUCES), Karachi, Pakistan

Projects & Portfolio Highlights

- **Personal Portfolio** — https://hassansibtain.dev
  - Built using **Next.js**, **GSAP** for animation, and **Tailwind CSS**, with a current migration to **AWS** in progress to support a crypto dashboard.
  - Engineered dynamic routing, theming, **SSR/SSG** strategies, and component modularization.
  - Applied **SEO** best practices including **metadata** management, clean URL structure, and pre-rendering for better indexing.

- **Nexus View Migration**
  - Full migration plan, code audit, and redesign of legacy Angular app with performance benchmarks.
- **Payment Suite (Haball)**
  - Enterprise fintech system with invoice management, vendor payment modules, and dashboard analytics.

Languages

English: fluent (**IELTS C1**)
